

## ADAGIO Premium Mineral Ceiling Range

### Product benefits at a glance:

Smooth, bright white surface with excellent light reflectance (88 %) and low gloss level that emphasises natural daylight environment for a better well-being and potential energy savings.

Low air permeability class up to PM1 (no filter effect) that ensures long-lasting bright surface.

Fully vacuum-painted edges that reduce the risk of damage during transportation and installation.

Widest acoustic options of sound absorption (up to 1.00  $\alpha_w$ ) and sound attenuation (up to 43 dB) to reduce noise level and create a serene acoustic environment for every application.

Best-in-class scratch-resistant surface that ensures easy cleaning, simple installation, and long durability with minimum maintenance.

Excellent clean room performance (ISO 4) fulfils high requirements for air purity and clean room quality.

Best indoor air quality thanks to certified VOC emission class A+, Indoor Air Comfort Gold and Finnish M1 as well as proven sustainability standard according to Cradle to Cradle Certified® Bronze.
